DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 35 and 36 are rejected under 35 U.S.C. 102(b) as being anticipated by US 6,235,994 B1 (Chamberlin).

Chamberlin discloses, referring primarily to figures 2a-d, a printed circuit board comprising, a conductive layer (15); a via (50) transecting the conductive layer; and an anti-pad around the via, the anti-pad comprising a pattern of conductive material (29) having a plurality of voids (17, 21), wherein the pattern comprises an asymmetric pattern (col. 7, lines 5-10) [claim 35].

Similarly, Chamberlin discloses, referring primarily to figures 2a-d, a printed circuit board comprising, a conductive layer (15); a via (50) transecting the conductive layer; and an anti-pad around the via, the anti-pad comprising a pattern of conductive material (29) having a plurality of voids (17, 21), wherein the pattern comprises a concentric circles pattern (col. 6, lines 20-30 and col. 7, lines 5-10) [claim 36].

Allowable Subject Matter

Claims 1-6, 9-34, and 37 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: Claim 1 states the limitation "wherein the pattern of conductive material is

Art Unit: 2841

electrically isolated". This limitation, in conjunction with the other claimed features, was neither found to be disclosed in, nor suggested by the prior art. Claim 17 states the limitation "wherein the pattern of conductive material is electrically isolated". This limitation, in conjunction with the other claimed features, was neither found to be disclosed in, nor suggested by the prior art. Claim 24 states the limitation "wherein the partially voided anti-pad is electrically isolated". This limitation, in conjunction with the other claimed features, was neither found to be disclosed in, nor suggested by the prior art. Claim 37 states the limitation "wherein the pattern comprises a screen pattern". This limitation, in conjunction with the other claimed features, was neither found to be disclosed in, nor suggested by the prior art.

Response to Arguments

Applicant's arguments with respect to claims 35 and 36 have been considered but are most in view of the new ground(s) of rejection.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeremy C. Norris whose telephone number is 571-272-1932. The examiner can normally be reached on Monday - Friday, 9:30 am - 5:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dean Reichard can be reached on 571-272-1984. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
